NATIONAL INSTRUMENTS

NI-DAQ™ FOR PC COMPATIBLES UPDATE

Version 6.8.1

The update CD for Windows 2000/NT/9*x* contains software required to update NI-DAQ version 6.8 or 6.8.1 for use with the following devices:

- NI 4551 for PCI

- NI 4552 for PCI

- PCI-4451

- PCI-4452

- PCI-4454

Note Install this update *only* if you are using one of the devices listed above with NI-DAQ 6.8 or 6.8.1.

Installing the Update Software

Close all other applications on your computer before installing the update, because installation will automatically reboot your machine. Install the update by completing the following steps:

1. If you have already installed NI-DAQ 6.8 or 6.8.1, skip to step 4. If not, insert the NI-DAQ 6.8.1 CD for Windows 2000/NT/9*x* in your computer.

2. Follow the instructions in the setup program to install the NI-DAQ software.

3. Remove the NI-DAQ CD from your computer.

4. Insert the NI-DAQ 6.8.1 Update CD for Windows 2000/NT/9*x* in your computer.

Note You can also access the update at
`ftp://ftp.ni.com/support/daq/pc/ni-daq/6.8.1/NI-DAQ6.8.1 UPDATE/`

5. Double-click `daq68update.exe` to install the update. The update program will automatically shut down, then restart, your computer.

---

6. After your computer restarts, shut down again and install your device.

7. Start your computer and configure your device with Measurement & Automation Explorer.
