

## COMPREHENSIVE SERVICES

We offer competitive repair and calibration services, as well as easily accessible documentation and free downloadable resources.

## SELL YOUR SURPLUS

We buy new, used, decommissioned, and surplus parts from every NI series. We work out the best solution to suit your individual needs.

 Sell For Cash    Get Credit    Receive a Trade-In Deal

## OBSOLETE NI HARDWARE IN STOCK & READY TO SHIP

We stock **New**, **New Surplus**, **Refurbished**, and **Reconditioned** NI Hardware.

*Bridging the gap between the manufacturer and your legacy test system.*

**PXI-2559**

# NI PXI-2559 Specifications

## 2.5 GHz 75 $\Omega$ Dual Terminated SPDT

このドキュメントには、日本語ページも含まれています。

This document lists specifications for the NI PXI-2559 multiplexer module. All specifications are subject to change without notice. Visit [ni.com/manuals](http://ni.com/manuals) for the most current specifications.

Topology ..... Dual terminated SPDT

Refer to the *NI Switches Help* for detailed topology and front panel connector information.

**Caution** To ensure the specified EMC performance, operate this product only with shielded cables and accessories.

**Caution** Device relays might change state momentarily during electrostatic discharge.

**Caution** Refer to the *Read Me First: Safety and Electromagnetic Compatibility* document at [ni.com/manuals](http://ni.com/manuals) for important safety and compliance information.

### About These Specifications

*Specifications* characterize the warranted performance of the instrument under the stated operating conditions.

*Typical Specifications* are specifications met by the majority of the instrument under the stated operating conditions and are tested at 23 °C. Typical specifications are not warranted.

### Input Characteristics

All input characteristics are DC,  $AC_{rms}$ , or a combination unless otherwise specified.

Maximum switching voltage ..... 30 V

Maximum switching current ..... 0.5 A  
(per channel)

Maximum carry current ..... 0.5 A  
(per channel)

Maximum RF power

Channel to common ..... 10 W

Termination  
( $\leq 25$  °C ambient) ..... 1.5 W  
(See Figure 5 for derating.)

**Caution** The switching power is limited by the maximum switching current and the maximum voltage. Channel to common switching power must not exceed 10 W.

**Caution** Terminations cannot withstand the full rated power of the NI PXI-2559.

**Note** National Instruments recommends against switching active RF signals. As a relay actuates, the channel is momentarily unterminated. Some RF sources can be damaged by reflections if their outputs are not properly terminated. Refer to your RF source documentation for more information.

**Note** Switching active RF signals below 0 dBm may degrade signal integrity and decrease relay life. For more information about switching active RF signals visit [ni.com/info](http://ni.com/info) and enter Info Code RFSwitching.

Typical DC path resistance

Initial .....  $< 0.35 \Omega$

End-of-life .....  $\geq 1.0 \Omega$

Path resistance is a combination of relay contact resistance and trace resistance. Contact resistance typically remains low for the life of a relay. At the end of relay life, the contact resistance rises rapidly above 1.0  $\Omega$ .

# RF Performance Characteristics

Characteristic impedance ( $Z_0$ ) .....75  $\Omega$  nominal

Values in parentheses are typical.

## Insertion loss

- $\leq 1$  GHz .....<0.9 dB (<0.55 dB)
- $\leq 2$  GHz .....<1.4 dB (<1.0 dB)
- $\leq 2.5$  GHz .....<1.7 dB (<1.3 dB)

## Voltage standing wave ratio (VSWR)

channel to common

- $\leq 1$  GHz .....<1.35 (<1.2)
- $\leq 2$  GHz .....<1.55 (<1.3)
- $\leq 2.5$  GHz .....<1.65 (<1.4)

## Typical isolation

- $\leq 1$  GHz .....>49 dB
- $\leq 2$  GHz .....>45 dB
- $\leq 2.5$  GHz .....>43 dB

## Typical crosstalk

- $\leq 1$  GHz .....<-60 dB
- $\leq 2$  GHz .....<-55 dB
- $\leq 2.5$  GHz .....<-55 dB

Typical channel-to-channel skew ....<20 ps

Typical propagation delay .....1.0 ns

Typical rise time (10% to 90%) .....97 ps

Refer to Figures 1, 2, 3, and 4 for typical insertion loss, typical channel to common VSWR, typical termination VSWR, and typical isolation, respectively.

Figure 1. Typical Insertion Loss

Figure 2. Typical Channel to Common VSWR

Figure 3. Typical Termination VSWR

Figure 4. Typical Isolation

## Termination Derating

**Caution** When operating the NI PXI-2559 at ambient temperatures >25 °C, the derating in Figure 5 limits the maximum constant power each termination can dissipate.

Figure 5. Termination Derating

**Caution** Failure to operate below listed power limits can result in permanent damage to the module.

## Dynamic Characteristics

Maximum relay operate time ..... 10.4 ms

**Note** Certain applications may require additional time for proper settling. For information about including additional settling time, refer to the *NI Switches Help*.

Expected relay life

Mechanical .....  $1 \times 10^6$  cycles  
 Electrical .....  $3 \times 10^5$  cycles  
 (30 V, 10 mA, DC resistive)

## Trigger Characteristics

Input trigger

Sources ..... PXI trigger lines 0–7

Minimum pulse width ..... 150 ns

**Note** The NI PXI-2559 can recognize trigger pulse widths less than 150 ns by disabling digital filtering. For information about disabling digital filtering, refer to the *NI Switches Help*.

Output trigger

Destinations ..... PXI trigger lines 0–7

Pulse width ..... Programmable  
 (1  $\mu$ s to 62  $\mu$ s)

## Physical Characteristics

Relay type ..... Electromechanical, latching

I/O connectors ..... 6 mini-75 Ohm SMB jacks, gold plated

PXI power requirement ..... 3.7 W at 5 V, 0.3 W at 3.3 V

Dimensions (L  $\times$  W  $\times$  H) ..... 3U, one slot, PXI/cPCI module  
 21.6  $\times$  2.0  $\times$  13.0 cm  
 (8.5  $\times$  0.8  $\times$  5.1 in.)

Weight ..... 218 g (7.7 oz)

## Environment

Operating temperature ..... 0 °C to 55 °C

Storage temperature ..... –20 °C to 70 °C

Relative humidity ..... 5% to 85%, noncondensing

Pollution Degree ..... 2

Maximum altitude ..... 2,000 m

Indoor use only.

## Shock and Vibration

Operational Shock ..... 30 g peak, half-sine, 11 ms pulse  
 (Tested in accordance with IEC 60068-2-27. Test profile developed in accordance with MIL-PRF-28800F.)

Random Vibration

Operating ..... 5 to 500 Hz, 0.3  $g_{rms}$

Nonoperating ..... 5 to 500 Hz, 2.4  $g_{rms}$

(Tested in accordance with IEC 60068-2-64. Nonoperating test profile exceeds the requirements of MIL-PRF-28800F, Class 3.)

## Diagrams

Figure 6 shows the NI PXI-2559 power-on state.

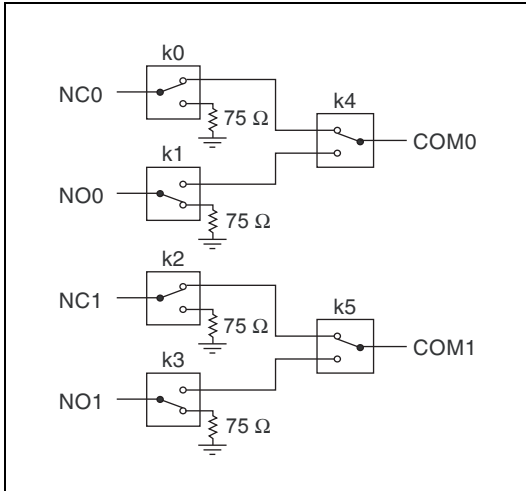

Figure 6. NI PXI-2559 Power-On State

Figure 7 shows the NI PXI-2559 front panel connector.

Figure 7. NI PXI-2559 Front Panel Connector

**Note** For topology-specific connection information, refer to your device in the *NI Switches Help*.

## Accessories

Visit [ni.com](http://ni.com) for more information about the following accessories.

**Table 1.** NI Accessories for the NI PXI-2559

Accessory	Length	Part Number
Mini-75 Ohm SMB plug to mini-75 Ohm SMB plug coaxial cable	0.3 m	197211-0R3
	1.0 m	197211-01
Type F female to mini-75 Ohm SMB plug coaxial cable	0.3 m	197210-0R3

**Caution** You *must* install mating connectors according to local safety codes and standards and according to the specifications provided by the connector manufacturer. You are responsible for verifying safety compliance of third-party connectors and their usage according to the relevant standard(s), including UL and CSA in North America and IEC and VDE in Europe.

## Compliance and Certifications

### Safety

This product meets the requirements of the following standards of safety for electrical equipment for measurement, control, and laboratory use:

- IEC 61010-1, EN 61010-1
- UL 61010-1, CSA 61010-1

**Note** For UL and other safety certifications, refer to the product label or the *Online Product Certification* section.

### Electromagnetic Compatibility

This product meets the requirements of the following EMC standards for electrical equipment for measurement, control, and laboratory use:

- EN 61326-1 (IEC 61326-1): Class A emissions; Basic immunity
- EN 55011 (CISPR 11): Group 1, Class A emissions
- AS/NZS CISPR 11: Group 1, Class A emissions
- FCC 47 CFR Part 15B: Class A emissions
- ICES-001: Class A emissions

**Note** In the United States (per FCC 47 CFR), Class A equipment is intended for use in commercial, light-industrial, and heavy-industrial locations. In

Europe, Canada, Australia and New Zealand (per CISPR 11) Class A equipment is intended for use only in heavy-industrial locations.

**Note** Group 1 equipment (per CISPR 11) is any industrial, scientific, or medical equipment that does not intentionally generate radio frequency energy for the treatment of material or inspection/analysis purposes.

**Note** For EMC declarations and certifications, refer to the *Online Product Certification* section.

## CE Compliance

This product meets the essential requirements of applicable European Directives as follows:

- 2006/95/EC; Low-Voltage Directive (safety)
- 2004/108/EC; Electromagnetic Compatibility Directive (EMC)

### Online Product Certification

To obtain product certifications and the Declaration of Conformity (DoC) for this product, visit [ni.com/certification](http://ni.com/certification), search by model number or product line, and click the appropriate link in the Certification column.

### Environmental Management

NI is committed to designing and manufacturing products in an environmentally responsible manner. NI recognizes that eliminating certain hazardous substances from our products is beneficial to the environment and to NI customers.

For additional environmental information, refer to the *NI and the Environment* Web page at [ni.com/environment](http://ni.com/environment). This page contains the environmental regulations and directives with which NI complies, as well as other environmental information not included in this document.

### Waste Electrical and Electronic Equipment (WEEE)

**EU Customers** At the end of the product life cycle, all products *must* be sent to a WEEE recycling center. For more information about WEEE recycling centers, National Instruments WEEE initiatives, and compliance with WEEE Directive 2002/96/EC on Waste Electrical and Electronic Equipment, visit [ni.com/environment/weee](http://ni.com/environment/weee).

### 电子信息产品污染控制管理办法（中国 RoHS）

**中国客户** National Instruments 符合中国电子信息产品中限制使用某些有害物质指令 (RoHS)。关于 National Instruments 中国 RoHS 合规性信息, 请登录 [ni.com/environment/rohs\\_china](http://ni.com/environment/rohs_china)。(For information about China RoHS compliance, go to [ni.com/environment/rohs\\_china](http://ni.com/environment/rohs_china).)
