## CUSTOMER NOTE

# NI PXI-819x Ethernet Driver Update

The NI PXI-819x Ethernet drivers have recently been updated. In the event that a system restore is required, we recommend that you use the hard drive based system restore tool, Acronis True Image, to ensure your system has the latest drivers. However, if a system restore is performed using the included recovery CD, it is necessary to update the Ethernet driver for optimal performance. The most recent driver can be found at the following link:

[ftp://ftp.ni.com/support/pxi/pxi-8190/peripheral\\_drivers/](ftp://ftp.ni.com/support/pxi/pxi-8190/peripheral_drivers/)

If system recovery completes using Acronis True Image, the drivers do not require an update.
