# NI Services and Support

As a registered user of our products, you are entitled to a wide range of services to assist you in realizing the full potential of your measurement and automation solution. Our goal is to maximize your productivity throughout your project life cycle ranging from concept to maintenance. We ensure that you achieve a lower cost of ownership by leveraging NI quality staff and comprehensive services to meet the demands of your specific requirements. To determine the services and support options that best fit your needs, please contact your local National Instruments sales representative.

## Sales Assistance and Purchasing

MyNI and the NI Business Center™ are your online resources for real-time assistance with National Instruments products and services. Here you can use the Upgrade Advisors to choose the right software version for your needs, configure your system, browse and compare products in the Online Catalog, purchase in local currency, and track your order or status of your service request.

If you would like to contact National Instruments directly, our global technical sales staff is available to answer any product, ordering, or support request you might have.

## Expert Technical Support

At National Instruments we are committed to your success and strive to provide you superior technical assistance worldwide. For 24 hours a day, 365 days a year, find answers to your technical support questions at [ni.com/support](http://ni.com/support) and [ni.com/zone](http://ni.com/zone) by accessing volumes of technical information such as:

- Developer user forums
- Developer community
- Application tips and customer solutions
- Example programs
- Frequently asked questions
- Troubleshooting wizards

For questions that cannot be answered by our Web resources, you can contact our qualified Applications Engineering staff via e-mail, Web, or fax to get up and running with your NI platform.

## Software and Hardware Services

We offer a variety of software and hardware services to ensure your solution is always up-to-date. By taking advantage of our Software Subscription Program you can relax and be assured that your National Instruments software has the newest features and capabilities.

We ensure you maintain the high quality and accuracy of your measurements with hardware services such as:

- Repair and upgrade services to minimize downtime and increase productivity
- Warranty programs to provide extended support
- Calibration tools and services to ensure measurement accuracy.

## Seminars, Training, and Professional Services

NI provides a wide variety of options ranging from FREE seminars to training and integration services to support you in developing your unique measurement solution and realizing the full potential of the NI software and hardware by lowering your time of development.

Please visit [ni.com/info](http://ni.com/info) and enter the info code **services** to access all NI Services and Support information and features.
